Trauma Informed Care

CARP's mission, goals, and vision are firmly grounded in the practice of Trauma-Informed Care. At the heart of Trauma-Informed Care are principles such as safety, trustworthiness/transparency, peer support, collaboration, empowerment, and humility. We uphold these principles by ensuring our guests feel respected and supported. This is achieved through maintaining healthy interpersonal boundaries among staff and effectively managing conflicts. We prioritize consistency in schedules and procedures while offering ample notice and preparation for any necessary changes. Our communication remains consistent, open, respectful, and compassionate at all times. Furthermore, we recognize and respect how an individual's culture influences their perception of trauma, safety, and privacy.
